

Eliminate COVID-19 with an EPA Certified Solution, safe enough to use as mouthwash.

Introducing Briotech Disinfectant The only 100% Organic EPA LIST-N Certified Product.

Featuring an alcohol-free formulation, this one-step, multi-purpose disinfectant, deodorant, and sanitizer is antibacterial and antimicrobial. Briotech Disinfectant kills harmful bacteria and sanitizes automotive interiors, homes, restaurants, kitchens, commercial facilities, and industrial applications. Additionally, Briotech is a biocide and bactericide that kills germs, reduces the risk of cross-contamination, kills odors, removes stains, and prevents mold, mildew, and algae.

Safe on All Interior Surfaces: 0% Bleach & 0% Alcohol.

Briotech is perfect for automotive applications because it contains no volatile inorganic or chemical compounds; bleach, alcohol, ammonia, phosphates, QUATS, fragrances, or dyes while being non-corrosive and non-flammable.

AVOID THE EXPENSE OF BUNNY SUITS, GLOVES, AND RESPIRATORY PROTECTION.

No Masks. No Gloves. No Bunny Suits.

How harmful are your current disinfection products to your employees and clients? Are you opening your business up to future liability or claims? Briotech is so safe that absolutely no PPE is necessary. It even makes an excellent mouthwash and helps cuts heal faster. Does your sanitizer do that?

Easy to Apply—Spray On...Wipe Off. It's that Simple.

With Briotech, it is unnecessary to purchase expensive application equipment. Spray touch-points, wait a few minutes, and wipe off. There is no residue nor a strong odor. Your clients will love their car even more and feel safer knowing Briotech Disinfectant protects them and their family.

BRIOTECH ADVANCED FORMULA REMOVES PATHOGENS AND ODORS FROM SURFACES TO PROTECT YOUR CUSTOMERS.

More Effective. (And More Cost Effective)

Not only does our product kill more pathogens, but it's more cost-effective than other products.

Our simple subscriptions save time and money.
